FROM

FOR THE 2ND TIME

AT THE FRANKFURT MARRIOTT HOTEL, HAMBURGER ALLEE 2, 60486 FRANKFURT, GERMANY

Lucerne, November 5th, 2024

Dear friend and friends of this beautiful world!

What would Mother Earth do if She didn't have people like you and us to look after Her Planet... Nature to start with, the Elemental World living in and upon Her, the birds, the butterflies, the insects, andultimately us the people themselves, for whom this Planet was created in the first place?

Do you believe this? Or do you assume that it is by sheer happenstance that you are here, living in this magnificent Realm—if you care to look at it that way? Or do you put your attention strictly on the negative and the messed up parts of our world such as air pollution, sicknesses like we have never known—and they are being created as I write this letter here—climate changes, wars, fighting amongst families, divorces, school shootings, gun violence, drug crimes....? Do you believe that this mess has for the most part been created by us, the peoples, or do you think it is a God of your own creation that is creating this to give you a reason to believe in Armageddon? Do you believe that you have it in your hands—what is more, that it is your own responsibility—to counter-act these wrongs by doing the right things and by showing others too how you live your life and have gained a more harmonious life therefore? If not yet, aren't you interested now in learning how this is possible and that it is now the time for you too to do something for your own life, if you want your and our children and the many generations to come after us, to have a better life? The children learn from us, and if we do not live by the Laws of Nature and the Divine Laws, starting right now, then our children will not learn rights from wrongs, and this too is our responsibility. Only, sooner or later we have to undo our wrongs, and that time is now. Talk is cheap, right? Well, we do not only talk, we live by what we teach and strive to be your examples.

As a true World Organism with responsible members in many a corner of this world, each one continuously trying to see and understand by experience in their own way more of the intricacies of how this world works, we have come to the inescapable conclusion that all people are equally responsible in one way or another to make a change towards a betterment of our lives. Consequently, we all have to up our game called life and finish the race! It is a stunning journey for us all, and a journey that is well worth embarking upon. We have no alternative but to accept that sooner or later everyone living here will have to come to terms with the fact that we are indeed the one and ones that we have been waiting for. Come and learn of the necessities for a beautiful life!

So, rather than giving you a long excursus of the dire need for all peoples here on Earth to recognise their responsibilities toward a new way of life according to Natural and Divine Laws to make this great habitat of ours become more healthy again—and it is possible with every breath we take and every bite of food we ingest, and every step we take upon our designated platform Earth upon which we all play our individual and combined roles—we ask you to step out in Faith and join your hearts and hands with ours and come to our 27th International World Congress.

Trust us, please, that when we say that we shall give you *new ways* of thinking, of looking at your personal life and at life as a whole in order to learn how to ease your life step by step, we truly will! Not only shall we present you perspectives of life that you have not seen or heard of, but will eventually assist you in learning to see new facets of life in order to help you gain more health, maybe restore health day by day and step by step. On top, by our Knowledge, practical Expertise and Experiences, and a Mission Statement by which we live, we are fully qualified to make this world a better place. Join heart and hands with us! We shall show you how easy it really is to become a more vibrant person if you feel down often, maybe experience depressions; we shall show you ways how to walk through the busyness and the hustle and bustle of life, in harmony with your self and much more.

Trust us too that we certainly are not a bunch of people using this organisation—or as we like to call it Organism, since everything on Earth is a living ‘thing’ and as such it always moves—or a bunch of ‘New Agers’ trying to bring some twisted thinking into your life. On the contrary. We are deadly serious about life. We are so serious in fact, that we can no longer hold back but to address the wide population, you for one, through this New Scientific Outlook Congress, in order to touch you with what we have to give you and to wake your interest too in learning more about the intricacies of life and how interwoven every action that we all take affects everything!!!!

Learning to recognise the latter is but the first step towards healing and restoring our own lives, and by doing so, we are in effect doing the same for our world, Planet Earth and all of God’s Creation. Now you might assess that you do not need to learn anything new and you are not one of these people.

Come and be with us for these few hours in your schedule, Thursday, November 28th, 2024 (19:00) to Sunday, December 1st, 2024 (app 15:00) **AT THE FRANKFURT MARRIOTT HOTEL, HAMBURGER ALLEE 2, 60486 FRANKFURT, GERMANY.**

It is my sincere hope to see you at the Frankfurt Marriott Hotel in Germany and that after having read our Invitation here, you feel compelled to say:

“YES! I want to be there with you and learn whatever I can. I know that I am responsible for my own life and therefore it is my bounden duty, literally, to do something while I can. Tomorrow might be too late. Not because I might be dead, but because the Window of Golden Opportunity to contribute to healing our world has closed, and all because I took life for granted.”

May you then accept our Invitation and be an active contributor at this Congress. Register (by **Wednesday, November 6th, 2024**) at

<https://www.naturalscience.org/congress-2024/registration/>

Should you prefer to register in person by phone, you can reach us in our European Headquarters in Switzerland: +41(41)798-0398.

When you register, you can also book your room at the Marriott Hotel in Frankfurt at the same time. We have a certain room contingent at a special “Congress Rate.” We can only advise you to take advantage thereof. Therefore, we recommend you book your room at the same time as you register for the Congress.

“NOTE HERE THAT BOTH THE HOTEL MARRIOTT AND WE HAVE A STRICT “NO SMOKING POLICY!”

We very much look forward to welcoming you in Frankfurt on Thursday, November 28th, 2024, 19:00 for our 27th New Scientific Outlook Congress. May you have a safe journey!

God bless you!
